

THE INTERIOR JOURNAL.

VOL. XXXIV.

STANFORD, KY., TUESDAY, SEPTEMBER 25, 1906.

NO. 55.

A Scene from "A Race for a Widow" at Walton's Opera House tonight.

The government printing office is now in fact, as well as in name, an open shop. The 60 printers who were expelled from the union for failure to pay their assessment to continue the strike for an eight-hour day were reinstated and the union will probably make no effort to have them dismissed from the printery, because several years ago they learned that President Roosevelt would not tolerate such a thing. It will be recalled that W. A. Miller, an assistant foreman, was dropped from the printing office force because he had been expelled from the union. President Roosevelt ordered his reinstatement on the ground that membership in a labor organization did not necessarily constitute an essential of the qualification for employment in any branch of the Federal service. In other words, he announced that the policy of the "open shop" would prevail while he was president. The affair has created quite a sensation in governmental and labor circles. Some of the 600 union men employed in the printing office favored a strike if the nonunionists, as the 50 men now are classed, were retained, but this proposition was frowned down by the majority. Labor unions are not so strong anywhere as they were, and not near strong enough in Washington to go up against the president.

Starving to Death.

Because her stomach was so weakened by useless dragging that she could not eat, Mrs. Mary H. Walters, of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep, and not before I was given up to die was I induced to try Electric Bitters; with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by Penny's Drug Store, Stanford, Lyne Bros., Crab Orchard.

SCHOOL.

Say, kids,
What do you think of school?
By gum,
Ain't it bum?
And yet you've got to have it;
It's medicine, you see,
To cure you for the uses
Of our futurity.
It takes your baby knowledge
And spreads it big and wide
Into a power of greatness
That swells the nation's pride;
It makes the feeble potent.
It lifts the strength of man
To such an elevation
As nothing mortal can;
It builds you into something
You can't at present see,
And makes you what your Maker
Intended you to be.
So, kids,
Stick to it through thick or thin,
And you're bound to win,
But just now it's tough
Enough—
Ain't it.

"Indeed?"

The Breath of Life.

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens, of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by Penny's Drug Store, Stanford, Lyne Bros., Crab Orchard. Price 50c and \$1.16. Trial bottle free.

The court of appeals reversed the Garrard circuit court in the case of the National Bank of Lancaster against M. W. Johnson's administrator. The appellate court sought to require the bank to pay over a deposit of Johnson amounting to \$12,000, including money which had been attached in hands of the bank. The lower court sustained the bank in refusing to pay over the attached money.

I desire in addition, to acknowledge with sincerest appreciation the courtesies extended me by the editor of the INTERIOR JOURNAL, and the kindnesses of the local correspondent, Mr. W. R. Williams. Most sincerely, S. B. Lander.

How to Avoid Appendicitis.
Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels, and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. Penny's Drug Store.
In an interview with an Owensboro Messenger reporter, Gen. Hays is said to have advised young men to keep out of politics, adding: "An honest man has a hard row of stumps in politics these days." True, very true, with such men as Hays evorting over the State bearing false witness against them and speaking all manner of evils falsely of his betters.—Frankfort Journal.

Ladies' Fine Shoes—Zeiglers.

These very reliable Shoes for the Fall and Winter 1906-7 are beyond any former season's production. They have that very necessary strap and careful workmanship and suppleness that gives a shoe character. There is nothing else we could put into our \$3 and \$4.50 shoes to make them better. We show all the new lasts and leathers. The new walking boots in button and lace are models of shoe making.

A \$2.00 SHOE.

We are often asked, "Can I get a good shoe for \$2?" We honestly believe we give you more style and more service in our \$2 Zeigler Shoe than any shoe made. Let us prove it. If we can't, your money back.

Competitors' Talk.

"Severance & Son are doing this!" "Severance & Son are doing that." Yes, Severance & Son are doing something all the time and endeavoring to do it right. We are always trying to get the newest and best, discarding the poor styles and poor qualities. Especially is this true in regard to Shoes. We have been importuned to buy certain lines of Shoes that have the looks, but lack wearing qualities. We have persistently adhered to our former policy to give our customers shoes that wear. This policy will prove very beneficial to you this season when leather is high and the country flooded with imitations.

School Shoes.

There is nothing else to it, a school shoe must be made of good material and of proper construction to stand the knocks of these perpetual motion shoe testers.

Bring the Boys and Girls to us and let us fit them with the right Shoe for service and comfort.

Little Folks' Shoes.

You must take care of the little folks' feet. Try a pair of our foot trimmers. They look elegant, yet are perfect fitters.

A CLEVER comedy filled with laughable situations and a love interest, not of the wispy-washy kind, is blended in with various other amusing complications in a play that has been successful abroad and in this country also, called "A Race For A Widow," and while it is comedy, there is a plot and strong dramatic situations are dovetailed in, making a capital entertainment. The company is said to be clever and they will appear at Walton's Opera House to-night. Pete Barker, the famous comedian, is the star.

TERRIFIC EXPLOSION AT JELICO.—Probably the most terrific explosion of dynamite which ever occurred in this section was that at Jelico Friday morning about 8 o'clock. The theory most generally accepted as to the cause of the explosion is that Walter Rogers, who had charge of a cold storage warehouse there, shot at a target on a box car which contained the fearful explosive. Of course Mr. Rogers did not know the contents of the car, or he would never have done so foolish a thing. The bullet, it is thought, went through the car and striking the dynamite, an explosion followed which cost the life of seven persons, the injury of some 150 others and property loss of from \$300,000 to \$500,000. The known dead are: John Cook, a son of the late Milton Cook, of Rockcastle, Jos. Sellers, Walter Rogers, George Atkins, James Reynolds, John Gordon, colored, and a Syrian, whose name was not learned. Some of the injured are so badly hurt that they will die. The writer arrived at Jelico some 10 hours after the catastrophe and witnessed a scene of destruction, the like of which he had never seen or had scarcely read about. At least 50 business houses and dwellings were flat, while a hundred or more were wrenched and badly damaged. Window glass by the thousands were broken, even in that part of the town a half mile from the scene of the explosion. The Kentucky side, which consisted chiefly of frame buildings, was practically destroyed. It looked as if each house had been raised and dropped down hard enough to make the roof and floor come together, throwing the slides out. The brick buildings nearest to the scene appear as if they had been burned out. All the windows, doors and part of the roofs are gone. Every saloon in the town, and there must have been 20, was badly damaged, some of them entire losses. The district where whisky is sold suffered greatest. A dispatch says that the citizens have already begun the work of rehabilitation and it is believed they will be able to cope with the situation without the necessity of outside help. Where the car containing the dynamite stood, a hole was left large enough to put a small house in. One of the car wheels was found some 200 yards away, broken loose from the axle. A train for Corbin left a few seconds before the explosion and a man on the rear end of it was knocked off. The train had been standing by the side of the car of dynamite and had the explosion occurred a few minutes sooner there is no telling how many people would have been killed. Those killed were literally torn to pieces, only a foot or a hand of some of them having been found.

SOME weeks ago a hen belonging to Mrs. George D. Hopper became sick and Dr. W. Harry Higgins, her nephew, who was at her house, examined her. He found a large knot, which he at once began to investigate. An opening was made and Dr. Higgins found that her egg bag was torn. This he sewed up and then fastened the aperture. Her henship was turned loose to live or die, the doctor remarking that he thought she would live but would do no more good as a "layer."

A little later the hen came out in full view of them all and laid an egg and to their still greater astonishment she laid another egg in a few hours.

A sad mistake is made by most people in putting off the use of spectacles too long. The old advice, "Don't begin specs till you have to," has done a world of harm.

Anyone can, by straining and squinting and looking sharp, go for a long time without spectacles, but he is sowing the seed of destruction in his eyes. Consult

Dr. Goldstein. Scientific examinations of the eyes free of charge.

Office hours from 10 A. M. to 3 P. M. at the St. Asaph Hotel. Will be in Stanford for one day only—Monday, Oct. 1.

WAS A VERY SICK BOY
But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.
"When my boy was two years old he had a very severe attack of bowel complaint, but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy we brought him out all right," says Maggie Hleko, of Midland Mich. This remedy can be depended upon in the most severe cases. Even cholera infantum is cured by it. Follow the plain printed directions and a cure is certain. For sale by Stanford Drug Co.

Since a man has been found with conscience tender enough to reimburse a railroad for a ride stolen 20 years ago, we have hopes that those missing umbrellas will be returned eventually.—Atlanta Journal.

Pain from a Bruise Promptly Relieved by Chamberlain's Pain Balm.
A little child of Michael Strauss, of Vernon, Conn., was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Strauss came to Mr. James N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says: "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommend it very often for cuts, burns, strains and lame back, and have never known it to disappoint." For sale by Stanford Drug Co.

That disaster breeds endurance no one doubts. An Easterner who was visiting in California at the time of the recent calamity fully recognized this fact and gave the Californians credit for it.
A building had collapsed as a result of the earthquake. Besides several Californians, confined beneath the debris was a New Yorker. As the rescuers began removing the brick and timbers, a feeble voice called from a corner of the building far below:
"Help here! I am from the East, and am unused to earthquakes. Take me out first."—Youth's Companion.

The laxative effect of Chamberlain's Stomach and Liver Tablets is agreeable and so natural you can hardly realize that it is produced by a medicine. These tablets also cure indigestion and biliousness. Price 25c. Samples free at Stanford Drug Co.

Mrs. Harvey Burks, Harrisburg, Illinois. Cured by "ZEMO" After Five Years' Torture.
WHY? SUFFER THE TORTURE OF ECZEMA OR ANY SKIN DISEASE WHEN THIS GOOD MEDICINE +ZEMO+ HAS NEVER FAILED TO CURE
E. W. ROSE MEDICINE CO., St. Louis, Mo.
HARRISBURG, ILL., May 12th, 1905.
I have been suffering from eczema what your good medicine did for me. I suffered six years from a torturing case of itching eczema of both arms. I tried eight different doctors, and every eczema cure I could hear of without relief. The disease grew worse and spread to my neck and breast. My arms had great sores which I have become an invalid and was confined to my bed part of the time. My husband bought a bottle of "ZEMO"; the first application stopped the itching, and I began to improve. In six weeks and ten days the disease had disappeared, and my arms were clean and smooth as my picture will show before and after using "ZEMO". My arms were so bad some of my friends wanted me to have them taken off, but I would not agree. I am now a healthy, content and have gained ten pounds in weight, and feel better than I have felt in many years. I consider my quick recovery to using "ZEMO" nothing short of a miracle. I am glad to answer all inquiries and recommend "ZEMO" to all persons suffering from any itching skin disease. Yours gratefully,
Mrs. Harvey Burks.
